From Graham's Magazine for Oct. THE RETURN OF YOUTH ... BY WM. C. BRYANT.

My friend, thou sorrowest for the golden prime,
For thy fair youthful years too swift of flight;
Then musest, with wet eyes, upon the time
(if sheerful hepes that filled the world with light;
Years when thy beart was bold, thy hand was strong,
And prompt thy tongue the generous thought to speak.
And willing faith was thine, and scorn of wrong
Summened the andees crimings to thy check.

Thou lookest forward on the coming days
Shuddering to feel their shadow out thee creep;
A path, thick-set with changes and decays,
Slopes downward to the place of common sleep.
And they who walked with thee in little first slage,
Leave one by one thy side, and waiting near,
Thou seest the sad companions of thy age—
Duil love of rest, and wearness and feat.

Yet grieve thou not, nor think thy youth is gone Rior deem that gierrous season e'er could de,
Thy pleasant youth's a little while withdrawn,
Waits on the bor zon of a brighter sky;
Waits, like the mora, but folds her wings and hides.
Till the slow stars bring back her dawning hour:
Waits, like the vanished spring, that slumbering bides.
Herown sweet time to waken bird and flower.

There shall be welcome thee, when thou shall stand On his bright morning hills, with smiles more sweet Than when at first he took thee by the hand, Through the fair earth to lead thy tender feet. He shall bring back, but brighter, broader still, Life's earny glory to thise eyes again; Shall clothe thy spirit with new strength, and fill Thy leaping heart with warmer love that then.

Hast thou not glimpses, in the twilight there,!
Of mountains where isomortal morn prevails?
Comes there not, through the silence, to thine ear
A gentle nurmur of the morning gales,
That sweep the ambrosial groves of that bright abore,
And thence the fragrance of its blossoms bear,
And voices of the loved ones gone before,
More musical is that celestial air?

CITY INTELLIGENCE. COURT CALENDER-This Day, September 26th. The September Term of the Circuit Court, and Court of Oyer and Terminer commences to-day. The Circuis has a large Calendar. The Nos. for to-day are 2 to 21, inclusive. GOMMON PLEAS.—The first part meets at 10 and the second at half past 3.—Part 1st: Nos. 137, 145, 25, 15, 17, 53, 149, 151, 183, 157, 159, 161, 163, 165, 171. Part 2d: Nos. 138, 58, 160, 162, 188, 164, 166, 168, 170, 172, 174, 176, 178, 184.

SATURDAY, September 24. U. S. DISTRICT COURT .- IN BANKEUPTCY .-

Before Judge Betts. Several petitions passed to decree. Mr. Joachimsen who had been ordered to show cause why he advised a bankrupt not to be sworn before a Commissioner, made remarks and presented an affidavit which seemed fully to acquit him in the estimation of the Court of all blame in relation to the matter. He had been applied to only that morning to become counsel for the bankrupt, where the party had given up his property to the amignee, had not petitioned for a discharge, and he considered, under the 4th section of the act that creditors had no right to put him upon his oath, although the assignee might. It was during the recess of the court—to which he intended no discespect—and he advised his ellent as he considered to be correct.— The affidavit was handed up, and the court, after remarking that the directions of a Commissioner in basarupicy must be attended to similar to those of a master in chancery, proceeded to the other business of the day.

SUPERIOR COURT .- Before Chief Justice Jones md Judges Tallmadge and Oakley.

DECISIONS.—George Somes vs. John T. Hildreth.—The

plaintiff obtained heavy damages in this Court on an action alander. A motion is made on the part of defendant for a new trial, on the ground that the damages were excessive, the character of the plaintiff being really bad, and that he bas since the trial been convicted of crime. In giving its decision the Court said it did not feel authorized to allow a sew issue on account of collateral matter. Motion for new trial denied.

Bank of Ratland vs. Gordon & Brown.- The Bank ac septed and paid a bill of exchange drawn by defendants, and sued for its recovery. The defence is, that the parties in Vermont in whose favor the bill was drawn were to send on a quantity of cheese, which they failed to do; also, that the Bank was in possession of collateral security, which it was bound to avail itself of. They also objected to testimony taken before a Commissioner being used on the trial. The Court overruled the objections: judgement for the

Charles Cakley vs. John L. Aspinwall et al .- The plainti attached property belonging to Baker & Young, as absent debtors, on a judgement for \$22,000 obtained against them in the Supreme Court. The defendants gave boad for B. & Y. and the attachment was released. One of the partmers appeared in Court, but the other was returned as not d. The present action is on the bond. The plaintiff's declaration contains four counts, which are demotred to by defendants as not showing the cause of action. The plaintiff complains that it the judgement is opened he will lose the advantage of his bond, and that he could have preceded on executions against the property. The Court decided that two of the courts are sufficient, but the others the reverse. They state there was a judgement, but that a insufficient. The the cause of action should have been judy set forth. The declaration contains tour counts, which are demorred to by They state there was a judgement, but that a insufficient; the cause of action should have been suity set forth. The debtor not brought into Court denies the class; sayshe had no opportunity to defend his cause, and puts in a general plea of non assumpsit. He has a right to the plea. As to be hazard to plaintiff in opening the case, that is a circumstance which the Court does not feel itself authorized to consider. The demurrers to the sufficiency of the counts are well made. Judgement for defendants on all the demurrers, with therety to the plaintiff to amend, i.e.

John Maymond and others vs. John Degroot and othersat action on a word relative to attachment on property of an absent debtor. Judgement for plaintiff, with leave to detendant to amend within five days. Wm. Basebeior vs. Alexander Caselli.-The question pre-

sented is, whether an a signer of rents has power to distrain, not possessing a reversionary interest or fee simple. Mr. Astor, proprietor of the Astor House, leased premises to Mr. Falmieri for a term of years. The latter fell into arreats and his surety, the detendant, took an assignment of the lease, but not with a reversion; and the question is, could the assigned distrain for reuts without a ree simple. The Creat Instant had an income ponder the statute Instant. Court thought he had such power under the statute. Judge-ment for deleadant.

Bedamin F. Hamilton vs. Daniel Coger.—In this case

judgement was abiained in this Court and carried up to the Supreme Court on a writ of error, where it was affirmed A different autoracy tried the case there, and gave satisfaction price, cutting of the attorney here from his ties on this Cour, The latter issued an execution as if the Judgement Lour, The latter issued an execution as it the judgement.

Inductions out of it is Court, and took property. A reference was find, and he was ocjudged costs and connectees.

Botton a made to set the reference aside. The Court, without wire wire the execution was right or not, approves of the award, except for the counsel fees. It the attorney yields them, the motion is denied; otherwise, to remain ones. Ann Stephens'vs Sophia Rode.-Case of Appeal. Actio .

for work and tobor. Defence, an indenture of apprenticeship, which had been signed by the guardian as a witness but not as apprincipal. Judgement reversed. Jouas Hover vs. Robert Van Zandt.-Appent. A son o

Mr. Van Zandt bad left his home and boarded with Mr. Mover at Fushing, who sued his father and recovered Appeal is made on the ground that young Van Zandt had a boine ready for hom at his father's hops, and the plaintiff home ready for him at his father's hoos, and the plaining had no right to board him with a view of charging the faion sustained, and judgement reversed Emery Townsend vs. A. Vanderpool.-Appeal. For

work and labor. Judgement affirmed.

Thomas Duna va John M'Carty-Appeal.-A her e had been sent bome by plaintiff (a farrier) by his boy, 10 or 12 years old, who, while riding him along, was run against by a cart, and the borse killed. The court below gave judge ment against the farrier for the value of the horse, on the ground that the boy should have led him house. This court on examining the facts, cannot see that any negligence was exercised. Judgement reversed.

R. P. Hobstead vs. B. F. Perker—Appeal.—Rel tive to goods sold, where it was said a winess was interested.— Judgement for plaintiff affirmed. H. D. Lorenia vs. Peter Relyea-Appeal on an action of prover, relative to some glass levied upon and sold. Judge-

John Beatty vs. Abel Wheaton.-Appeal. An action on the bond given by the pound-kerper to the corporation, on which the isore-viewer sned to recover certain ices claimes by him. The Chart decided that the hood contains no obli-gation to say a fince viewer. Judgement reversal. John Ferruson va. Wm. B. Waish.—Appeal. The deten-

dant (an officer of the U. S. Court) attached the spirit-gas stock of plantiff in Centre-street, on an execution against his brother at the suit of Mr. Jennings, for violation of patent. The property was taken as belonging to his brother. Judgement was given in favor of plaintiff for \$94. Judgement athrared.

Henry Head we the Mayor, &c-Appeal - Judgespoot bad been given against Mr. H. for seiling fresh meatout of the ma het yest nets. The court observed that the appeal was enertained day to can'te the counsel, as he signified his because to do, to lay the came be one the Supreme con a counts of this court, movever, would be unform as the

NEW AIR-TIGHT STOVE, called BOSWORTH'S PATENT HEAT RETAINER. This newly invented Stove is upon the Air-Tight Principle and stands nurvalled for its beauty, safety and temperature of heat produced. It is simple in construction, and may be used with or without an oven, which is admirably adapt-

Prom J. H. Linsley, DD. President Marietta College, Obio, Marietta College, Obio, January 27, 1842. Mr. Zepheniah Basworth—Sir—I have in use one of your improved air-tight Stoves. There are, I believe, several rarieties of this kind of stove in use in the country. It is wareties of this find of shore in the in the country. It is not necessary that I should compare yours with others. I will only say that I prefer yours to any other which I have seen in operation and indeed to any close stove which I have ever seen. The following are among its excellencies:

1. It throws out a great amount of heat. 2. It consumes a very small quantity of fuel in proportion to the space warmed. 3. The courtol of the door and the damper over he draught is so entire, that you may graduate the temper-ture of the room, as you please. If the stove be properly managed, the air is never scoreched, and no water is required on the stove. 4. It is admirably adapted to the sick room ed on the stove. 4. It is nomirably adapted to the sick room where a steady fire and even temperature is required. 5. The process of consuming the fuel used, is so slow that your room is kept moderately warm by a good sized stick of solid dry wood, from 8 to 10 hours. Hence its superiority as a sick room stove, or for offices where you have frequent occasion to leave your fire unrenewed, for a considerable time. 5. The safety of the stove is perfect. I ought, perhaps to add, that the large sizes, though more certly at first, are the most economical, and exhibit the peculiar excellent leucies of the stove to the best advantage, because with them our room is warmed while the draught is kept at the low st point.

Yours, &c. J. H. LINSLEY.

est point. Yours, &c. J. H. LINSLEY.
From Rev. Th mas Wickes.
Having used the Air-Tight Stove of Mr. Bosworth during the past winter, I can cordially concur in the above reco-mendation of it by Dr. Linsley.

THOMAS WICKES,

Paster of the Congregational Church of Marietta, Ohio s16 2w PARR'S LIFE PILLS.—It is impossi ble to calculate the many benefits to the bunion race which must result from the discovery of Old Parr's re-cipe. The fire berbal medicine which is compounded cipe. The fire herbal medicine which is compared from its direction has, in thousands of cases, been tried and prover to be the most efficient remains of the day. Nor is it confined in its usefulness to the diseases of the poor, for it is sought by, and famed in the medicine chests of the more wealthy classes of Great Britain and various parts of the conflored of Europe.

As a tanking medicine it is unequalled, and is all powerful in removing hillons and other complaints arising from the decangement of the abunentary duets, and in purelying the blood. It is certain in the care of the more delicate complaints originated to females, grateful to the taste, aromatic to

plaints incluent to females, grateful to the taste, aromatic to the smell, and at the same time so gentle in its operation, yet so efficacious, that no female ought to be without segreat a book, left them by its venerable discoverer, Old Parr.

It has been but a short time before the public, yet the proprietors have received numerous applications for the fills from various parts of the United States, and have had gratilying testimonials of their good effects is removing increases prevalent at this season of the year.

Corns! Corns! Corns SPECIFIC much needed—The following is true—A gentleman from Charleston came to this city a few days since suffering terribly by termenting Corns. A wholesale dealer at 115 Maiden Lane advised him to try Sir Astley Cooper's Corn Saive, mentioning that he had been cured. The gentleman used it, and found it a speedy cure. He immediately ordered ten dozen boxes South, and past the cash for them, Dr. Sherwood, 325 Broadway, says that saive is a specific for corns. Dr. Fleming, of Newark, declares it a certain cure for corns. Fanny Newark, declares it a certain cure for corns. Fanny Elister found it a speedy cure, as may be learned by cal-ling on Mr. Brooks, 138 Fulton street, New York. Professor Ewood, contributor to the Saturday Evening Post, Philadelpoia, certifies that he used this salve 3 years since, and had not been in the least troubled since. Hundreds of the most respectable ladies and gentlemen have testified to its virtue. A few of the many certificates given are here

nserted.

Having suffered severely from my corns, I had them extracted a few weeks since by a celebrated Corn Doctor, and never were they more painful than for three weeks following that operation, when I was induced to try Cooper's Corn Salve, which has removed all pain as well as all appearance of Corns. I would recommend its use.

WM. C. LEMON, No. 2 Wall-st. We, the undersigned, having been sorely afflicted with Corns, were induced to make us of Sir Astley Cooper's Corn Salve, which has effected a perfect cure in a very

Croton Water Pipes.

DOCUMENT No. 13.—Board of A sistant Aldermen, July 29th, 1842.

Report of the Select Committee on the subject of Naylor & Ewhank's Patent Timed Lead Pipe, for the conveyance of the Croton Water. Presented by Mr. Scoles.

EDWARD WILLIAMS, Clerk.

ot the Croton Water. Presented by Mr. Scolex.

EDWARD WILLIAMS, Clerk.

The Select Committee, to which was referred the annexed petition.

REPORT:

That is addition to the written statements presented, the following scientific gentlemen appeared before your Committee, and were examined by them upon the matters submitted to their consideration: Drs. Chilton, Ellet, Gale and Griscom. Your Committee have also personally inspected the process of tinning the pipes. The opinions of these gentlemen were very clearly and positively expressed: they agree in condemning the use of ordinary leaden pipes for the conveyance of water as dangerons to health, in consequence of the highly poisonous character of the white crust of oxidized lead which is thus produced. They consider the use of leaden pipes as most dangerons when the water is remarkably pure. Dr. Ellet states that leaden pipes are used in the city of Edinburgh, where the water has certain mineral qualities that counteract the process of oxidization. He experimented with the purest water while residing in South Carolina, and found such a tendency to oxidization as satisfied him of the danger of using leaden pipes. The Croton water is very pure, and therefore the use of leaden pipes ought by all means to be avoided.

Dr. Chilton recently inspected the Croton water drawn from the leaden pipes, by which it has been introduced into the house of a well known merchant in Pearl street in this city, and found the water evidently pollute by the lead. All these gentlemen agree that tinning the inside of the pipes is an effectual protection. They also stated that it would be a protection, although some small portions of the lead. It further appears that the proximity of the tin would, from certain chemical causes, prevent oxidization of the lead. It further appears that the proximity of the state of the lead. It further appears that the proximity of the state of the lead. It further appears that the proximity of the state of the lead. It further appears that the proximity of t

Messrs, Navior & Ewbank inform your Committee that they are willing to furnish the Corporation of the City with their timed leaden pipes, which are thus recommended by chemists of high reputation, at the same rate as the ordinary leaden pipes, the use of which they all unhesitatingly condemn. They would furnish them at from eight to nine cents per pound—in no case at more than nine cents per pound. From all the information obtained, and all the restriction bestowed by your Committee upon a subject of no pound. From all the information obtained, and all the re-diction bestowed by your Committee, upon a subject of no it le importance, as connected with the head and comfort of sur citizens, your Committee have arrived at the follow-ing conclusions: That the use of the ordinary leaden pipes for the conservacion of the continuous leaden pipes ing conclusions: I hat the use of the order place in for the conveyance of water, particularly when as pure as the Croton, is decidedly dangerous, and therefore ou the to be avoided. The danger would be less where the pipes are be avoided. The danger would be less where the pipes are small in circumference and in daily use, and greater where there is more extent of surface, and they have been permitted to remain unused for any considerable space of time.—The internal coating of the will be a secure pretection against the oxidization of the lead. The timed leaden pipes of the petitioners are altogether superior to the ordinary leaden pipes, and deserving of public patronage.—Your Committee therefore recommend that these timed leaden pipes be adopted for the conveyance of the Cruton water into the public buildings, in preference to the ordinary leaden pipes.

Your Committee of the conveyance of the Cruton water into the public buildings, in preference to the ordinary leaden pipes.

water into the public buildings, in present into the public buildings, in present into the Board Your Committee offer for the consideration of the Board Your Committee offer for the consideration of the Board Your Committee offer for the consideration. the following resolution: Resolved, if the Board of Aldermen concur, That the Joint Committee on the Croton aqueduct be instructed to make use of Naylor & Ewbank's patest tinned leaden pipes for the conveyance of the Croton water into the public buildings, provided that the cost of the same shall not be greater than that of any other species of pipe which is equally safe.

WM. V. BRADY.

GHARLES J. DODGE.

The Tinned Leaden Pipes, spoken of in the foregoing Report, are furnished and put up by P. NAYLOR & CO., 76 Broad-street and 703 Broadway.

IMPORTANT NEWS from Providence.

RYOK YANE'S EXPECTORANT TRIUMFHANT'—A Card.—I give the public the following facts, that all interested may be benefited by the operation.

I am sixty-four years of age; have been for four years seriously efficient with the asthma, have tried several physicians, and taken many "certain" cures of great expense and without a sy essential advantage. For two years I was not able to passible whole of a night in my bed. On consulting Or Washoot of this city, about my case, he adviced one Dr. Wadsworth, of thiscity, about my case, he advised me to take Dr. Jayne's Expectorant. This medicine operated as he told me it would do. I have taken ove hottles of it, and consider myself in a manner cured by it. I can now lay comfortably all night; am free from the tightness of the lungs and weakness of the stomach, which so dreadfully distressed and reduced me. In short, life had become fairly burdensome to me—tow I enjoy it, though I am not entirely free from other infirmities attendant upon old age.

ERENEZER WEBSTER.

MAES .- HIGHLY IMPORTANT. To secure a fine head of luxuriant Hair, a proof of mand sof signatures, by persons of high standing can be

VEGETABLE EXTRACT OF JAMPOONY. Motice.—No imitation of the kind will ever surpass the Jampoogy. Approved by the Faculty of Medicine in Paris. "Entered according to act of Congress, A. B. 1941, by P. Maes, in the Clerk's Office, in the Southern District of New-

York."

CHINESE CREAM.

This excellent article is used after the application of the Jampoony—the great excellence of the Chinese Cream will be found to consist in feeding the Hair, supplying those properties to it upon which sepends its invariance, healthy or richness of appearance. These articles can be obtained only in New-York of P. MAES, 162 Broadway.

Also—P. Maes' Wig Manufactory—New imitation of the skin light summer wigs, and others, at a great reduced price and of the best, made to order whole-ale and retail, for country perconnis. ry nerchants.

ROMAN EYE BALSAM, for Weak and Inflamed Eyes.—This Raisam is a prescription of one of the most celebrated osulists, has been a long time in one of the most celebrated oscilists, has been a soig time in mee, and is confidently recommended to the public as the best and most successful salve ever used for inflammatory diseases of the eye. In cases where the eyellids are very much inflamed, or the ball of the eye thickly covered with blood, it operates almost like magic, and removes all appearance of disease after two or three applications. In Dimness of Sight caused by fixed attention to minute objects, or by long exposure to a strong light, and in the weakness or partial loss of sight from sickness or old age, it

is a sure restorer, and should be used by all who find their is a sure restorer, and should be used by all who had their eyesight failing without any apparent thesase.

This Balsam has restored sight in many instances where almost TOTAL BLINDNESS, caused by excessive inflammation, had existed for years. Inflammation and sorrness caused by blows, contusions, wounds on the eye, or by extraneous bodies of an irritating nature introduced under the cyclick, is very soon removed by the application of the Balsam. One trial will convince the most incredulous of its effects.

The following evidence of its superior excellency is from the following evidence of its superior excellency is from the Pastor of the Episcopal Church at Barlom:

HARLEM, July, 1841.

Messrs, D. Sands & Co.—Gents: From motives of humanity I am prompted to inform you that a few applications of your. Roman Eve Balsam' have made a perfect cure in the case of my aged mother, who has suffered under a most painful inflammation of the eyes for twelve or lifteen years. paintal inflammation of the eyes for twelve or lifteen year.

Physicians have given up the case as hopeless on account of
the patient's age, but by the blessing of Heaven, your remedy has verified the adage. While there is he there is
hope? Yours most gratefully.

Mrs. Davis, No. 77 Essex-street, has been cured of inflam-

mation of the eyelids and weak eyes, of years' duration, by using only one jar of the Eye Balsam. Mist Fitzgerald, No. 2 Market street, had for two or three

years been so much afflicted with weak and indamed eyes, that at times she could scarcely see to read. Her eyes have been completely restored by this Balsam, after all other means had failed. Hundreds have by its bealing virtues means had failed. Hundreds have by its nearing virtues been restored to sight, where almost total blindness, caused by excessive inflammation, had existed for years. Put up in small jars with full directions for use. Price 374 cents. Prepared and sold, wholesals and retail, by DAVID SANDS & CO., 77 East Broadway, corner Market street, New-York Sold also by A. B. & D. Sands, 79 and 100 Fulten-street, and by A. B. Sands & Co., 273 Broadway, corner Chamber street.

THOMSONIAN .- Do you want health. you abandoned Invalids '- Doctor Cyrus Thomson, of Gedde-, Onondaga Co., and Dr. John Thomson, of Albany New York, have opened an Infirmary at 343 Broome street where many of the most desperate cases of Consumption Raising Blood, Dyspepsia Inflammatory Chronic Rheumatism, Scrofula and Dropsy may be cured, and many other districtions compaliants may be preposed after the failure of tism. Scrofula and Dropsy may be cured, and many other distressing complaints may be removed after the failure of all other remedies. Call and see the patients now at the Infirmary under treatment, from whom facts can be learned that would not be prudent for others to proclaim as regards their rapid improvement in health. Also see the original and complimentary letters from their Majesties the Kings of France and Prussia, and a massive gold medal from Louis Phillipe to Doctor John Thomson. These two brothers have had upwards of 20 years each of experience in the most desperate diseases of the country, as a host of testimony which they can adduce will certify, among which is the opinion of three several Committees appointed by the Legislature of the State of New York to examine said practice and Doctor Thomson's patients personally, in Albany, An interview with the patients at the Infirmary by others that are diseased will be satisfactory in the highest degree that are discased will be satisfactory in the highest degree to the latter. Call and see them, as it will cost nothing but the trouble of the visit. Sait Rheum, Pissa and Saroful of the worst kind cared.

T IFE! LIFE! LIFE!-" All that a man hath will be give for his life,"—so we find it re-corded in the most ancient and best of books, but when we correct in the most ancient and rest of occass, but with over thousands slying all around us, with Consumption, Croup, Cough, Asthma, Bronchitis, Spitting Blood, and other Pulmonary Affections, we are led to doubt the correctness of the above assertion, especially since it is so well known that a certain remedy may be obtained which al-

ways arrests those diseases.

DR JAYNE'S EXPECTORANT never fails to give re DR. JAYNE'S EXPECTORANT never tails to give relief and always cures after every other means have failed.
This can be, and has been proven in thousands of instances,
where it has effected radical cures after the patienthad been
given up by his friends and physicians. This valuable Expectorant is prepared only by DR. JAYNE, No. 20 SOUTH
THIRD street, Philadelphia.

NIEWS FROM DOWN EAST .- From a respectable merchant of Eastport, Me., Aug. 18th, 1841—Dr. Jayne: Please to send me a large supply of your valuable medicines, particularly of the Expectarant, as I have a great demand for them in the Brutish Provinces. A gentleman from Windsor. (Province of New Brunswick.) was passing through here on his way to Boston, to get cured of Broachitis, when I re-o mended to him your Expertingst. It did the needful for him, and he returned home perfectly cured.

rast. It did the needful for him, and he recursed feetly cured.

The Expectorant has brought one man to life here after his physiciens had given him up, and he had taken nothing for three days. His complaint was called consumption. I happened to call in, and saw him in a very distressed sittation. I recommended his wife to try the Expectorant, thinking that it might give him some case, and he would expire with less agony, but he recovered right away. The Doctors biew me up. Yours, Ed., in haste.

John BEKCFORD. Prepared only by Dr. D. Jayne, 20 South Third street,

Philadelphia.

A FFECTIONS OF THE LIVER.—

DESIRE A RESTORATION TO REALTH.—I venture to affirm, says an emisseat writer, that the grand source of benith and disease is connected with the natural or disordered function of the fiver, and that every chronic or lingering illness arises from some defectibers. Shronic Hepatitis the most frequent form of the disease in this country, is slow in its propressive strength. The organ of attack will be for years suffering under its undermining influence, and yet no real disease will indicate to the patient the alarming state under which he is laboring; any transient indisposition he imputes to a different cause, never suspecting that the liver being affected is the latent source of these disturbed semations; and thus misled, it is not in his power to take the necessary presentions to guard against this insidious enemy to his repose, and the summary of this disease are often slight and felt for a The symptoms of this disease are often slight and felt for a confiderable time, such as fulness after meals, accompanied by oppression, a feeling of vacuity at the pit of the stomach, the mind becomes irritable, nuemory defective, incapacity for mental exertion prevails, the appetite becomes variable, tongue furred, mouth clammy, taste vitiated, slight nolse, causes a start, sleep disturned with frightful dreams, occasionally no obtuse pain in the right side, extending to the top of the shoulder, cramp or spasm is often experienced, and nervous twitching of the muscles and aching pain of the limb, nervous or sick healache is generally caused by it. It often appears in the form of cough, asthma, &c., as a diseased state of the liver, either by sympathy or pressure, induces a derangement of the functions of the imags and occasions these disorders. By changing the merbid state of the liver, their ritation of the lungs immediately gives way.

The liver is indeed connected, primarily or secondarily, as cause or effect, with various diseases of the head as well as other parts of the liver are of the fir

From these views, then, there can be no doubt that the disorders of the liver are of the first importance, and every effort used to remedy them should be conducted on rational principles, and by timely and efficient attention and the use of the most proper medicines, many very serious consequences may be prevented, which too often are establed on the constitution by procrastination.

As a remedy peculiarly adapted to the cure of liver affections, Dr. Starkweather's Hepatic Riisr has proved to be the most potent and efficacious, and every day's experience confirms more positively this assertion. It is candidly be lieved that no preparation has ever been before the public to the met with such unexampled approbation from dis-

lieved that no preparation has ever been before the public toat has met with such unexampled approbation from distinguished sources, disinterested judges, and grateful patients as this medicine, and a greater amount of suffering has been mitigated and more cures permanently effected by it than any other medicine extant.

So combdent is the proprietor of its curative properties in every case, that when the medicine is used according to his directions and the patient is not satisfied or convinced, after using one bottle, that it has produced a beneficial effect, his agents are authorised to return the money paid for it on return of the empty bodile.

agents are authorised to return the most permit in of the empty bodie.

JAMES BACKMAN, No. 180 James st. Rev. Dr. John Scott states that be has made use of Dr. Allen's Balsam of Hoatbound, Liverwortand Pieursy Root them apparently in the last slages of consumption, with the most astonishing effect. He feels in duty bound to make this public statement, and hopes that all elergymen in visiting those laboring under consumption, will advise them to try Dr. Allen's Balsan. REV. DR. JOHN SCOTT, New-York.
ATTEND TO YOUR COUGH—Although Dr. Allen's Balsani

ATTEND TO YOUR COUGH—Although Dr. Allen's Baisann is a sovereign cure for consumption, still it is very dangerous to let your coughs run on without Dr. Allen's Baisann et Hoarhound, Laverwort and Pleurisy Root. It is no uncommon thing for persons to break a blood vessel in the act of coughing, and die in 15 minutes—that we have seen. If you have a cough, dear reader, go this day and get this Baisan—a few doses of it will cure you; to-morrow may be too late. Sold by WM. A. TileR, wholesale Agent, 88 Barclay street, and E. M. Guion, corner Bowery and Grand Streets. METER

WAR! WAR! WAR!—The Wigbor, Dr. JAYNE, on account of his HAIR TONIC, which is knocking all their business into a 'cocked hat' Ladies and Gentlemen, sid and young, are flocking to the Doctor's standard. Heads long divested of even the first rudiments of hair, after using his Hair Tonic, soon appear with new and flowing locks, which Absalom himself might have envied. Beardless boys are seen with large and bushy whis. vied. Beardless boys are seen with large and bushy whis. vied. Beardless boys are seen with large and bushy whis kers, and lastics smile again through their own raven ring lets, more beautiful and bewitching than ever. Ba dheads are doffing their wigs and throwing them to the 'moles and bats,' while the wig-makers stand aghast as they behold the demol tion of their business.

What will be the consequence of this war we know not, as the wiggies are outrageous and the Doctor remains from, and declares that 'so he things can be done as well as ethers,' and that Bald fleads may as well wear their own hair as the hair of other people.
